

## **Comet Launches New Dedicated HPP Web Site**

June 7th, 2017

Burnsville MN- Comet Pumps, a manufacturer of high pressure pumps and accessories, announced today the launch of its newly dedicated website to their HPP brand of high pressure pumps. This newly designed website offers quick and easy access to indispensable information and features that offer a clear understanding of the quality and performance Comet HPP brand pumps deliver to industrial markets. The website also delivers continuous updated company news and resources to accommodate visitors desire to learn.

The new website provides a bold layout with incredible functionality, while building awareness of the HPP brand, “The idea of an HPP dedicated website is driven by the desire to give a stronger identity to this brand on a global level. We wanted to provide our online visitors not only an informative website on HPP pumps and accessories, but the most up to date content that is expected,” said Giorgio Barbareschi, A representative of Comet’s International Marketing team.

Comet’s HPP new website will be updated on a regular basis with news of product launches, business activity, and upcoming corporate events. This new website is located at <http://www.hpp-pressurepumps.com>

Comet pumps is an Italian manufacturer of a full line of industrial high pressure plunger pumps and accessories that operate with power ratings up to 550 HP, flow rate up to 128 GPM and pressures up to 40,000 PSI. These pumps are used in a variety of applications such as sewer jetting, hydro excavation, hydro demolition, high pressure cleaning, water jet cutting, and many other industrial applications.
